Wed. & Thurs. Sept 12 & 13, 2018

Core Carpet Cleaning

8:30AM – 4:30PM

This is your chance for a two-day intensive experience into the world of carpet cleaning – both commercial and residential. The first day will be team teaching with our Pro's Choice rep, focusing on troubleshooting and the whole array of cleaning solutions they offer. We'll complete that day discussing carpet manufacturing, and why you need to know this for your work. The second day we will focus on low-moisture cleaning in the morning, and have the rest of the day to show you different cleaning methods and techniques, as well as answer your questions. Please contact us to reserve your space now – space is limited.
