SLEEK, AERODYNAMIC DESIGN IMPROVES AIRFLOW AND PROTECTS YOUR INVESTMENT

The Hydro-Filter™ is an essential part of your business; the advanced polymer is designed to withstand impacts and high temperatures and allows you to impress your customers by showing them how much dirt is being removed - something not possible with opaque filters. The redesigned stainless steel filter protects your vacuum motor from harmful debris and maximizes your machine's CFM performance. Additionally, the screw on lid eliminates broken latches so you can focus on your work, not on repairs.

* Test performed using a White Magic Pro 1200 Truckmount.

as low as **\$99**
Stainless Mesh Filter IS included!

AMAZINGLY durable polymer uses the same material used in **bullet-proof** windows!

All-mesh stainless steel filter **reduces turbulence** since air passes straight through, not around the filter.
